Details of Activity (In Brief):

Women Empowerment Cell and Unicare Health Care centre, Nashik jointly organised a workshop for college girls on 19/10/2022. Title of the workshop was ‘Thyroid and Hormonal Imbalance in Women’ with subthemes causes, symptoms, treatment and precautions. Mrs. B.S.Vidhale, Co-ordinator of Women Cell and Mr. Swapnil Visute Naturopath from Unicare Health Care Centre, Nashik discussed the topic in detail.

Thyroid problems in Women occur when thyroid makes too much or too little hormone. This is called hyperthyroidism or hypothyroidism. This leads to speed up or slow down heart rate. Iodine deficiency and auto immune diseases are the main causes of thyroid.

Common symptoms of thyroid in women are fatigue, weight gain, constipation, hair loss and skin dryness. If this happens, women should take preventive treatment for this.

The guest speaker talked about the treatment of thyroid also. Medicine, Radio iodine and surgery are the main treatments for female thyroid problems. Antithyroid medicines block the thyroid cells and surgery removes most or all of the thyroid cell.

While talking about precautions, he asked women to visit the doctor, make regular thyroid test, not to smoke, eat less soy, ask for a thyroid collar during X-rays to protect thyroid glands from radiation exposure.

The speaker also answered to queries raised by students.

Outcome of the Programme:

1. Girls understood the exact meaning of thyroid glands and thyroid disorder.
2. Students learned about the ways to protect themselves from thyroid problem.
3. Students became health conscious as well as diet conscious.
