#### **Details of Activity (In Brief):**

Our college Bar. RDIK & KD college, Badnera falls under the jurisdiction of Amravati Municipal Corporation. But, most of the students are coming to college from surrounding rural areas. Most of the girl students are from low-income group families and suffer from anaemia. Girls getting dizzy is a regular thing in our college. Keeping this in mind Women Empowerment Cell felt the need of haemoglobin and thyroid check-up camp and hence organized 'Blood Group, Haemoglobin and Thyroid Check-up camp' for female students and female staff members of college on 28/9/2022. The camp was jointly organized with Urban Health Centre Modi Hospital Badnera, Amravati Municipal Corporation and Zoology Department of our college. The camp was free of cost and three components namely blood group, Haemoglobin percentage and thyroid were tested in this camp.

Prof. Dr. Anil Gour and students of Zoology Department tested blood group of students. While Dr. Vaishali Matghare and her support staff from Modi Hospital made Haemoglobin and thyroid tests.

Reports of Blood group and thyroid tests were collected from the pathology lab and distributed to girls' students. Analysis of haemoglobin percentage was performed.

Out of the total girls tested for Haemoglobin, it was found that 22 girls were with haemoglobin percentage below normal level.

As a supportive measure iron and folic acid tablets were distributed to students in this camp.

#### **Outcome of the Programme:**

1. As most of the girls are from rural area and poor families, they even didn't know their blood group before. Now blood group was known to them.

#### **Details of Activity (In Brief):**

Women Empowerment Cell and Unicare Health Care centre, Nashik jointly organised a workshop for college girls on 19/10/2022. Title of the workshop was 'Thyroid and Hormonal Imbalance in Women' with subthemes causes, symptoms, treatment and precautions. Mrs. B.S.Vidhale, Co-ordinator of Women Cell and Mr. Swapnil Visute Naturopath from Unicare Health Care Centre, Nashik discussed the topic in detail.

Thyroid problems in Women occur when thyroid makes too much or too little hormone. This is called hyperthyroidism or hypothyroidism. This leads to speed up or slow down heart rate. Iodine deficiency and auto immune diseases are the main causes of thyroid.

Common symptoms of thyroid in women are fatigue, weight gain, constipation, hair loss and skin dryness. If this happens, women should take preventive treatment for this.

The guest speaker talked about the treatment of thyroid also. Medicine, Radio iodine and surgery are the main treatments for female thyroid problems. Antithyroid medicines block the thyroid cells and surgery removes most or all of the thyroid cell.

While talking about precautions, he asked women to visit the doctor, make regular thyroid test, not to smoke, eat less soy, ask for a thyroid collar during X-rays to protect thyroid glands from radiation exposure.

The speaker also answered to queries raised by students.

#### **Outcome of the Programme:**

1. Girls understood the exact meaning of thyroid glands and thyroid disorder.
2. Students learned about the ways to protect themselves from thyroid problem.
3. Students became health conscious as well as diet conscious.

Various issues related to menstrual hygiene were discussed in this workshop.

Aim of this workshop was –

Girls should first understand the main reason for menstrual period, which is a natural process in every female body. (NSS) स्वयंसेवक या विषयाबद्दल संवेदनशील होतील तसेच त्यांच्यामार्फत ही माहिती इतर लोकांपर्यंत पोहचवली जाईल व त्याचा फायदा जास्तीत जास्त स्त्रिया व मुलींना होईल.

तरीही वरील सर्व बाबींचा विचार करून आम्हाला आपल्या एन.एस.एस (NSS) युनिट सोबत मासिक पाळी व्यवस्थापन हा उपक्रम राबविण्याची परवानगी मिळावी हि विनंती.

धन्यवाद

#### **Details of Activity (In Brief):**

In this workshop resource person Dr. Mohan Kherade, Director, Knowledge Resource Centre, SGBAU, Amravati gave the information about search techniques with the help of google. He defined information search techniques as standard mechanism for retrieving information from any information system. He gave information about Phrase searching, Boolean logic, Nested searches, Proximity, Truncation, Wildcard, Common Pitfalls.

He also stated that searching for information has to be precise and thorough. Successful literature reviews are created from searches using well-chosen keywords and phrases over a broad range of resources. To conduct a precise and thorough search you may need to use a variety of techniques, from Boolean logic to truncation and proximity searching. Not every technique is supported by every resource, and the ways in which the techniques are used can differ, so always check the help available for each individual resource. If your search is continued over a long time, you might find it helpful to keep a diary or journal. This can help trace changes in the direction of your research, and record useful search strategies, keywords and phrases. He also guided about how to search appropriate information and how to avoid irrelevant information with the help of specific example and PPT. He also stated that it is very important to select appropriate information from huge collection. He also taught how to save information from google.

2. Name of Activity : Group Discussion (Water Pollution)
3. No. of Participants : Students -20, Teachers -01
4. Date of Activity : 23<sup>rd</sup> May, 2022

#### **Details of Activity (In Brief):**

Water is a natural resource that is both essential and priceless on this world, along with air. To bring awareness about water pollution and need for its conservation among students, this year our department of zoology decided to hold group discussion on the topic "Water Pollution", for the students of B.Sc.II&B.Sc.III, on **23/05/2022**. Total 20 Students were grouped in two groups for this discussion. The students actively participated in this discussion.

Water pollution refers to the contamination of bodies of water, such as rivers, lakes, oceans, and groundwater by harmful substances. These substances can include pollutants like chemicals, sewage, industrial waste, and microorganisms. Water pollution has detrimental effects on aquatic ecosystems, wildlife, and human health, making it a significant environmental concern. It can lead to reduced water quality, harm aquatic life, and pose health risks for those who rely on polluted water sources for drinking or other purposes.

#### **Discussion Highlights:**

The discussion began with an overview of water pollution, its causes, and consequences.

Group A and Group B identified various sources of water pollution, including industrial discharge, agricultural runoff, and improper waste disposal.

Participants discussed the devastating effects of water pollution on aquatic ecosystems, wildlife, and human health.

Students shared specific examples of water pollution incidents, demonstrating the real-world implications of the issue.

Both groups brainstormed potential solutions, such as stricter regulations, improved waste treatment, and public awareness campaigns.

#### **Outcome of the program:**

The group discussion among B.Sc.II&B.Sc.III students on water pollution was a productive and enlightening exchange of ideas. It served as an effective platform for raising awareness about the critical issue of water pollution. During the discussion, participants demonstrated a deep understanding of the causes, consequences, and potential solutions related to water pollution.

**Details of Activity (In Brief):**

*Gambusia* fish culture project is being run by zoology department since 2001. Our college is an authorized center for Anti malaria fish *Gambusia* (Guppy masa) Governed by District malaria Department (Urban only) and Amravati Municipal Corporation since the year 2001. It comes under the jurisdiction of Urban Health post Modi Hospital Badnera. These fishes help to control the diseases like malaria, dengue and chicken gunya.

The malaria department often takes the *Gambusia* fish from our college tank for distribution in malaria prone regions. Zoology department also provides the fish to people like govt. Modi hospital or students who approach to the department.

**Outcome of the program:**

- 1) By distributing Guppy fish to students and the local community, there is a positive impact on mosquito, control. Guppy fish are known for their effective consumption of mosquito larvae, reducing the mosquito population in the area. These fishes help to control the diseases like malaria, dengue and chicken gunya.
- 2) Students got opportunity to learn about responsible fish care and the maintenance of an aquatic ecosystem. This hands-on experience fosters a greater understanding of environmental stewardship, involving the local society in this eco-friendly initiative promotes community engagement and awareness about the importance of maintaining a healthy environment.

They discussed plants release oxygen at night and consume carbon dioxide, creating a very convenient environment for us humans to breathe it. Many plants are found to supply usually during day, whereas this process gets reversed at night. Some popular plants that give oxygen 24×7×365 days. Students took a look at these green beauties and ask villagers to start planting them around themselves.

#### 2) **Areca Palm:** *Dyopsis lutescens*

Goes by the name golden palm, butterfly palm and yellow palm. It can be early planted in full sun but it prefers provide shade. It releases oxygen and increasing its

level in the area where it is kept, also filters pollutants like xylene, toluene and formaldehyde.

**3) Aloe vera plant:**

Known to remove toxins from the air like aldehydes and benzene. It release oxygen during day as well as night. They have pointed leaves with white transparent gel. It also has a medicinal property and used for multiple treatment like /minor burns, psoriasis, constipation, diabetes etc. over watering can been its root, whereas it prefers a sunny atmosphere.

**4) Money plant: *Epipremnum aureum***

This plant help remove Benzene, toluene, xylene and formaldehyde. Student said that this plant help improve the oxygen from the air.

**5) Gerbera plant: *Gerbera jamesonii***

Gerbera is a flowering plant species that known for its oxygen releasing properties at night. It is benefitted to people who suffer from sleep and breathing disorder. It needs sunlight in its flowering season. The Garbera plant can survive for more than two years.

**6) Tulsi: *Oscimum sanctum*:**

It is used to treat asthma,cold, sore thorat, high bold pressure and cholesterol. It is an excellent stress relaxant and inflammation controller. Tulsi is easily available in each and every house and can be used by the people. Is also absorbs harmful gases like carbon monoxide, carbon dioxide and sulphur dioxide from the air.

**7) Neem tree: *Azadirachta Indica***

Students focused on neem having antibacterial properties to purifying air around us. It acts as a natural pesticide and cure for many ailments. It extracts are used in different hair care and dental products.

**8) Peepal tree: *Ficus religious***

Gives oxygen at night too. In India the Peepal tree is considered one of the holy tree. Students gives information about the Peepal tree that treat asthma, constipations, acts as a remedy for tooth decay, diabetes controller. This is scared tree found in every village and cities. Also, the plant can keep improving the quality of air and provides oxygen at night.min late 2019, severe acute respiratory syndrome corona virus (SARS-Cov-2) emerged with a high transmission rate and severe effects on human health. **ABOUT QUIZ COMPETITION**

As we know that Mathematics is all about learning numbers and concepts with fun and enjoyment. "Mathematics as an expression of the human mind reflects the active will the contemplative reason and desire for aesthetic perfection". To inculcate the value of facing challenges and expressing their understanding of calculations and equations, a Mathematics Quiz competition is organized for UG and PG students of Department of Mathematics of Sant Gadge Baba Amravati University, Amravati on the eve of 133th Birth Anniversary of India's famous mathematician Srinivasa Ramanujan.

As we all know mathematics improves the reasoning and logical thinking of our students. Through this activity we want to give our students the confidence and ease with age appropriate mathematical operations. Quiz competition is a great way of analyzing how well one understands a subject and correlates the theoretical knowledge with its practical application in real life. It encourages students to stretch their knowledge horizons and look beyond what they are taught in class. Mathematics quiz is an excellent way of finding how well the students understand its concepts, and use them in their regular life. To promote and encourage a fun way of learning among students.

2. Name of Activity : Guest Lecture (Soft Skills and Personality Development)
3. No. of Participants : Students-84, Teachers-4
4. Date of Activity : 22<sup>nd</sup> February, 2018

**Details of Activity:**

To develop students' personality and soft skills, Department of English during the session 2018-2019 organized "Guest Lecture" on 22<sup>nd</sup> of February, 2018 at 10:00 am. Dr Subhash Sirsat from Tompe College, Chandur Bajar was a keynote speaker at this programme. He started the session with a very creative introductory session, where students had to introduce themselves in a novel way. They had to either mention an adjective or a quote or song which best describes them. They could also explain the meaning of their names (without revealing the names) thereby giving an opportunity to the others to guess the names! It was an enjoyable ice-breaking exercise and it was observed that students were quite engrossed in the exercise. He also explained students about the importance of Personality Development that Personal development increases your self-awareness, your self-esteem, increases your skills, and fulfils your aspirations.
